

Harm Reduction

One of our organizational values is that we honor many pathways to recovery. This concept acknowledges that people find recovery through many different ways. One viable path to recovery is through harm reduction strategies. Harm reduction saves lives. Opioid use and overdose deaths have become a major concern, not only in Wyoming, but across the nation. Recover Wyoming is helping to save lives by providing harm reduction supplies at the Recovery Center. People can access Narcan, Fentanyl testing strips, masks, hand sanitizer, condoms, and other wound care supplies by coming in and grabbing what they need from the basket, no questions asked.

RW staff and families help advocate for the reality of long-term recovery in our community and state-wide during Cruise Nights in October.

The 11th Annual Cajun Fest Dinner & Recovery Celebration was a success! The event included a catered Cajun dinner, live & silent auctions, recovery speaker, program updates, and a performance by comedian in recovery, Andy Gold. It was an amazing night! Join us again at Cajun Fest in September 2023!

PATH Program

RW has entered it's 9th year of providing services to persons experiencing homelessness through the PATH Program, which is spearheaded by PATH Coordinator, Dawn Cranmore. During 2022, 103 persons were contacted by PATH staff, 89 of which became enrolled in PATH services. We assisted 32 individuals to secure new housing or prevent eviction from current housing. PATH staff will continue to engage in street outreach and help provide information and support to people living in places not meant for habitation.

A Note from the Director-Lana Mahoney

This year has brought upon change and growth for our organization. I am always in awe of the work that our board, staff, and volunteers accomplish. We are a small but mighty team! During 2022, we had contact with over 1000 individuals who came in or called the Recovery Center to receive recovery support or to get information and resources. We held over 60 all-recovery meetings. We provided recovery support, housing assistance, gas vouchers, bus passes, cell phones, and other supports people need to attain recovery through ARPA funds. We helped with housing searches, employment applications, & resource referrals. We provided coffee, snacks, blankets, and hats/gloves to persons experiencing homelessness. We spent time sitting with families and friends, whose loved ones are struggling. We celebrated the successes of people achieving eleven years or even one day of recovery. We continued to train and certify Peer Specialists across the state.

In the upcoming year, we will continue to educate and advocate for the reality of long-term recovery from substance use disorder. And, while many of us do recover, there are those who have not yet found recovery and are dying from this disease. Join us in saving lives by donating to Recover Wyoming or another recovery-oriented organization in your community. By helping someone attain recovery, we are healing not only that person, but their family, friends, and the broader community. Be a part of this ripple effect as we are "Healing Lives, Creating Futures."

Happy Holidays! From Lana, the RW Staff, & Board of Directors
